[Despatch Abstract.]

Acts and Rules. Madras Rinderpest Act 1940 - Certain Sections - Extension to South Kanara District - Ordered

Animal Husbandry Department,
Triplicane P.O., Madras,
Dated the 22nd Feb. 1951.

Roc.No.798-IV/51.

From

Sri V.R.Rajagopalan, GMVC., Dip.Bact.(Manchester),
Director of Animal Husbandry, Madras.

To

The Deputy Secretary to Government,
Development Department, Madras.

21480

Sir,

Sub: Rinderpest - Prevalence of Rinderpest in South Kanara district - Enforcement of Rinderpest Act, proposals - Submitted.

---

The District Veterinary Officer, South Kanara reports that Rinderpest is prevailing in Shimoga district (Mysore) which borders the South Kanara district. Since August, 1950 traders are moving large numbers of cattle from Bombay Presidency, Bellary district and Mysore State into South Kanara district. These are taken along the main roads as well as through interior paths and sold enroute in the villages. ~~This has resulted in the appearance of Rinderpest in the district and at present in the villages.~~ This has resulted in the appearance of Rinderpest in the district and at present in the villages of Miyar and Hebri of Karkal taluk and Hengavalli of Coondapoor taluk. The District Veterinary Officer reports that the disease has so far been in a mild form but the trade in cattle and their continual movement is a source of further spread of the disease. The District Veterinary Officer, therefore, suggests that in order to control the epidemic effectively, the Rinderpest Act may be enforced throughout the South Kanara district. I agree with the District Veterinary Officer and accordingly request Government to be pleased to apply the provisions of the Madras Rinderpest Act (Madras Act XIX of 1940) to the district. The provisions of Sections 3,4, 5(a), 16, 19(a) and 24-30 (both inclusive) of the Act alone may be made applicable with immediate effect upto the end of May, 1951.

2) A separate notification under section 5(a) of the Act for making inoculation compulsory in respect of the class of animals defined in Section 3(a) of the Act may also be issued.

Yours faithfully,

V.R.Rajagopalan 22/2/51

DIRECTOR OF ANIMAL HUSBANDRY

Copy of Ref.C.No. 217/51 dated 11- 2- 1951 of the District Veterinary Officer, South Kanara addressed to the Director of Animal Husbandry, Madras ( copy sent to the Collector of South Kanara)

---

Sir,

I submit that I have received intimation from the Mysore State that Rinderpest is prevailing in Shimoga District which borders South Kanara District.

2. Kulgunda Cattle Fair and Seetanady fiar ( both annual) were over on 10- 12- 1950 and 31- 12- 1950 respectively. Since August, 1950, traders are moving large numbers of cattle from Bombay Presidency, Bellary District and Mysore State into South Kanara dis rict. These are taken along the main roads as well as through interior paths and sold enroute in the villages.

3. This has resulted in the appearance of Rinderpest in the district and at present in the villages of Miyar and Hebri of Karkal Taluk; and Hengavalli of Coondapur Taluk.

4. The disease is so far in a mild form and altogether 25 attacks and 3 deaths are verified and consequently there is not much eagerness and willingness for inoculation among owners of cattle and traders. The trade in cattle and their continual movement is a source of further spread of the disease.

5. Added to this there are two weekly cattle Fairs in this district, one at Kota and the other at Kunjal.

6. Therefore, I consider, that in order to control the epidemic effectively and promptly we have to compulsorily inoculate cattle in all affected villages as well as those being moved by traders and those gathered in the two weekly cattle fairs.

DRAFT NOTIFICATION:

In exercise of the powers conferred by Section 1(3) of the Madras Rinderpest Act, 1940,( Madras Act XIX of 1940) His Excellency the Governor of Madras hereby directs that the provisions of Sections, 3,4,5(a),16,19(a) and 24-30 (both inclusive) of the said Act shall apply to the South Kanara district with immediate effect up to the end of May 1951, both days inclusive.

Collector, South Kanara.

p 1 c of

[Memo No 214 80 E/57 dated 26. 2. 57 to the Collector of South Kanara.]

p 3. C.F

From the Collector of South Kanara. D. Dis No 50 47/57-1 dated 22-2-1957.

p 5 C.F

On this letter dated 22-2-57 the D. A-H reported that Rinderpest was prevailing in the Shimoga District of Mysore which boarders on the South Kanara District and that from August 1956 traders are moving large herds of Cattle from Bombay Presidency, Bellary District and Mysore State into South Kanara Dt. These animals are moved both by the main roads and by interior paths and sold en route in the villages. This, it is reported, has resulted in the outbreak of rinderpest in the district and (it is) at present prevalent in the villages of Niyar and Hebri of Karkal taluk and Hengavalli of the Coondapur taluk. The D. A. H has suggested that in order to Control the epidemic effectively the provisions of sections 3, 4, 5-(a) 16, 19(a) and 24 to 30 (both inclusive) may be applied to the whole of the South Kanara District with immediate effect up to the end of May 1957. The D. A. H has also

requested that another Notification under Section 5 (a) of the Rinderpest Act may be issued to make inoculation compulsory during the same period the provisions of the Act are brought into force. The Collector is in agreement with the views of the D. A. H. He has accordingly submitted two draft Notifications, one under Section 1 (3) of the Act and the other under Section 5 (a) of the Act. The proposals may be accepted. A draft order embodying the two Notifications is submitted below for consideration. Legal may see for scrutiny.
